An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Zhengnian Tang on 7-28-2005.

In claim 1, at line 8:

after "indicating",

-- to a patient -- has been inserted

after "updated",

-- ongoing atrial -- has been inserted

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or anticipate an implantable device which periodically checks atrial arrhythmia events through out the events and indicates a status and in turn generates a message to the patient to apprise the patient of the status of the ongoing events using updates wherein the patient receives information regarding ongoing event status.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
